Made in Italy these high quality stainless steel drawer slides with Acetal Homopolymer Resin Rollers have a smooth strong action and are ideal for the Foodservice and Commercial Refrigeration industries. Acetal Homopolymer Resin is a highly crystalline polymer that has high stiffness & strength without the need for glass reinforcement. Fastening to your cabinet can be easily achieved with screws or rivets.

Color: Stainless Steel Brilliant Finish

Material: 304 Grade Stainless Steel with Acetalic Rollers
