Hollow Mushroom Cap, Surfmist White, 25 Pack

PART No: CSDX-25

FEATURES

A 76.5mm diameter hollow mushroom cap coloured to match commonly used 'surfmist' insulated panel. This cap looks like a standard mushroom cap used for suspending ceilings and fixing to threaded rod but this cap actually has no threaded nut or large washer. Commonly used by contractors to cover ugly or simply hazardously sharp nut, bolt or thread heads on panel wall penetrations. Fix with a good quality Silicone or Mastic.

Color: Surfmist White

Material: Nylon
