HBF Premium Silicone Translucent 300gm

PART No: 15020120

FEATURES

HBF Premium Silicone Translucent 300gm

FulaSeal PRO™ 300 is a premium, neutral-cure, 100% silicone sealant designed for glazing, construction, and industrial fabrication where a high-quality, non-corrosive sealant is required. It offers excellent adhesion, flexibility, and durability, with superior resistance to temperature, weathering, and UV exposure. FulaSeal PRO™ 300 can also be used as a high-performance adhesive for flexible, waterproof, and heat-resistant bonding applications.

Key Benefits:

- Fast skinning for efficient application
- Maintains flexibility with ±30% joint movement
- Low sag for clean, precise joints
- Minimal shrinkage for long-lasting seals
- Neutral-cure, non-corrosive formula
- Resistant to UV exposure and weathering
- Low VOC for safer use
- AS4020-2005 approved for potable water applications

Uses:

- Sealing glass block structures, laminated glass, roofing, wall cladding, gutters, flashings, tanks, and silos
- Sealing joints in glass partitions
- Glazing and waterproofing of skylights
- Non-structural weather sealing of curtain wall facades
- Sealing and insulating electrical services
- Filling channels and sealing lap joints in metal fabrication

- Bonding standard silver-backed mirrors

ADDITIONAL INFORMATION

Substrate Compatibility:

- Ceramic materials
- Glass
- Concrete surfaces
- Plasterboard
- Timber
- Metals, including steel (stainless)
- Zinc and galvanised steel
- Aluminium
- Selected plastics (pre-testing recommended)
