

ReadyTrace Drain Heater 2m

PART No: 60-651-1330

FEATURES

ReadyTrace Drain Heater 2m

Applications:

- Protects small and medium diameter pipes from freezing and rupture.
- Works in both residential and commercial settings.
- Suitable for refrigeration drains, roof and gutter applications

Key Benefits:

- Self-Regulating Technology - Increase and decrease power as required - saving energy.
- Easy to install - Flexible materials and smaller diam cable for excellent bending radius.
- Safe and Reliable - Prevents overheating even when overlapped.
- Built to last - Proprietary technology ensures continuous operation and extended life.

ADDITIONAL INFORMATION

Why ReadyTrace?

- Smaller Profile Cable - More flexible and easier to install.
- Factory-fitted thermoplast moulded fittings - Ensures durability and reliability.
- Includes 1m 14 AWG Power Cord - Ready to use right out of the box.
