

# Aluminium Foil Insulation Tape - 50mm

PART No: 1520CW

## FEATURES

### Aluminium Foil Insulation Tape 50mm x 50m

This malleable foil applies easily to both fibrous & sheet metal ducts and conforms to irregular surfaces.

1520CW excels in demanding temperature and humidity applications and provides superior performance and durability over a wide range of environmental conditions, which includes UV stability.

**Colour:** Silver

**Material:** Annealed Aluminium Foil coated with cold weather acrylic.
