ADDITIONAL INFORMATION

The A-JUSTA-FOOT™ system delivers a solution for industrial, commercial kitchen and food service applications. The range includes heavy duty adjustable feet suited to appliances and benching, as well as tube inserts for round and square tube.

The Heavy-Duty feet are available in all metal 304 stainless steel in bolt down or non-slip variants with load ratings up to 4500kg. Vertical angle is also adjustable up to 55 degrees, ensuring level appliances and work surfaces.

Of course, not all applications require the heaviest of duty. The range also features Nylon Adjustable Feet, with the same ball jointed vertical angle adjustment and fixed feet with no adjustment. All are available in both mild steel and stainless steel.
