Fermod Wall Guide Kit, Doors up to 2940mm Wide.

PART No: F70097

FEATURES

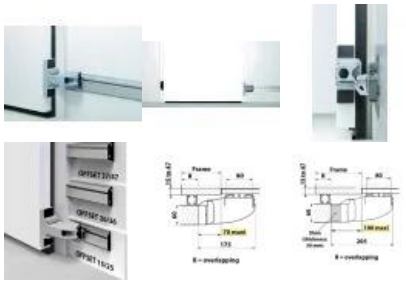

Please Note:

Label-WG is not included in this Kit, but can be purchased separately

F7540 Wall Guide Kit, Including Rail

- This System is reliable and efficient without mechanical parts (roller, axes, springs... etc.)
- In case of impact, the door can disengage from the guiding rail without damage.
- A single reference for both opening sides
- Available for 3 frame offsets: 15/25, 26/36 & 37/47mm
- Positioned towards the bottom of the wall, the mechanism ensures smooth gliding during operation, as well as good compression against the wall when closed. (Right or Left Opening)
- With its simple design, the wall guiding system uses the same principle as the floor guiding system but without any floor fixings. This allows the installation of the door even if the floor is not finished.
- The parts on the door are adjustable to ensure a perfect sealing of the door.
- It can be installed in place of the floor guiding system.

Kit Contains:

- Bottom wall guide rail
- F7450 Wall guide rail end caps
- Version 2 wall guide trolley with shims and end caps
- F7450 closing guide set

Colour: Grey

Material: Aluminium & Composite
