Kason Hydraulic Door Closer - 0mm - 19mm Offset

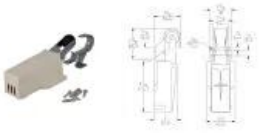

PART No: K109304

FEATURES

The Kason K109304 Hydraulic Door Closer is supplied with a hook and is suitable for doors with a 0mm to 19mm offset.

- Shuts coolroom doors silently and keeps them shut.
- Re-closes doors that have popped open as a result of temperature pressure build up.
- Prevent door and door frame damage by eliminating slamming.
- Powerful gas loaded hydraulic cylinder.
- Life-cycle tested to 275,000 closures.
- Ivory coloured plastic cover
- Manufactured under licence in Japan
- Drilled for 5mm screws.

Use with the Kason 78 Series latch for a perfect close every time. The Kason 78 soft tongue latch is the only latch that is designed to work with the Kason Hydraulic Door Closer. See related products for more info.

Colour: Ivory

Material: Steel with PVC Cover

ADDITIONAL INFORMATION

With Kason Hydraulic Door Closers fitted to your coolroom door you'll no longer have to constantly tell your staff that the coolroom door is ajar. Your equipment won't be running as hard and you'll end up saving money.

Tested for 275,000 Cycles which equates to opening your door 25 times a day for 7 days, 365 days per year for the next 30 years. This product is not tough, its Kason tough!

Check out the video for a demonstration of how the Kason Hydraulic Door Closer works on a coolroom or freezer room door.
