Fermod Inside Release Deflector

PART No: F430D

FEATURES

Prevent accidental impact damage to your Fermod Latch by installing the F430D Deflector. Once installed, the Deflector prevents unintentional damage from carts or trolleys by deflecting the impact out & away from the inside release.

The F430 Deflector is a specified requirement on all new and retrofit Woolworth's Doors that use the F430 Latch.

*Inside release is not included

Colour: #4 Polish

Material: 304 Grade Stainless Steel

ADDITIONAL INFORMATION

CRH & All manufacturers highly recommend that all internal safety release mechanisms fitted to doors are checked at least 3 times weekly to ensure they are functioning correctly.
